

### REMARKS

Claims 26, 27 32 and 33 have been canceled. Claim 21 has been amended to incorporate all elements of canceled claim 32. A substitute specification and marked-up copy pursuant to 37 CFR 1.125 are included. Corrected drawings are attached, including new Figures 5 and 6. Applicants submit the amendments comply with the Examiner's requirements of form, and do not touch on the merits of the application. Applicants request admission of the amendments.

#### Specification

The Examiner objects to the drawings because certain elements are not numbered. Applicants have amended the drawings to include this numbering. This requires amending the specification to include such numbering. No new matter has been added.

#### Drawings

The Examiner objects to the drawings because of undefined elements. Corrected drawings include Figures 1-6. Figure 1 now includes elements 12 and 14. Figure 2 shows elements 18, 14 and 24. Figure 3 shows elements 20 and 22. Figure 4 shows element 15. These elements were described, but not referenced by number, in the original specification. New Figure 5 is analogous to Figure 4 and shows element 16. New Figure 6 presents a cross-section of original Figure 3. No new matter has been added.

#### 102 Rejection

The Examiner objected to claims 26-27 and 32-33. These claims have been cancelled. The rejection is now moot.

Allowable Subject Matter

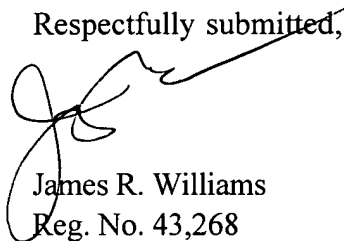

The Examiner has allowed claims 14-15, 24-25 and 28-31. The Examiner also indicated that claim 21 would be allowable if amended to include all limitations of claim 32. Amended claim 21 has been amended accordingly and is believed to be in condition for allowance.

Applicant believes that the amended claims are now in condition for allowance. Applicant requests admission of the amendments and allowance of pending claims 14-15, 21, 24-25 and 28-31.
